

NEW in CHART PATTERN Recognition

Identify & Select the Best Patterns in Seconds!

One of the truly great things about CPRM5 is its automation. You can plug the module into OmniTrader or VisualTrader and it instantly generates patterns in your charts. And you can also select patterns to use based on their performance, which is a tremendous benefit.

CPRM5 comes with a powerful tool called the **Chart Pattern Profit Analyzer**, improved for Version 5. It enables you to **instantly determine which patterns are the most effective on your list.**

With the improved Chart Pattern Profit Analyzer, you can use key performance metrics like Hit Rate or Profit per Trade to identify those patterns you want to use on your list—just check them on the left and only those patterns will be displayed.

You can also get printed reports showing the same information. This new feature makes it very easy to find and activate patterns that have the right combination of Accuracy, Profit per Trade, and Number of Occurrences in your list.

Enabled	Pattern	Term	#	PPT	HR	APR	ACC

on Module 5

Custom Patterns

CPRM5 also comes with the ability to create **CUSTOM Patterns**. The interface is shown to the right.

There are many ways to use Custom Patterns. You may see a pattern that CPRM5 did not identify using standard settings, and you'd like to create a custom pattern so it is recognized in the future.

Or, you may observe (or have a theory) that a specific pattern, like a Trend Line spanning months of data, could be a really great confirming pattern.

Just add the pattern and move the sliders. INSTANTLY, you will see feedback from what you are doing in the displayed chart.

In just a few minutes, you can get the exact pattern you want, enable it, AND get performance reports for it. It's the ultimate Chart Pattern Customization feature, putting YOU in control and giving YOU the best possible view of the market.

Creating Custom Patterns is easy in CPRM5.

NEW SEMINAR
by Ed Downs

The Most Accurate Chart Patterns and How to Use Them

In this seminar created for Omni Trader University, Ed Downs teaches how to use CPRM to identify the most accurate chart patterns. Ed

also reviews the structure for each pattern to find the best entry point, and shows how to manage pattern trades using information in the chart. This seminar will open your eyes

to the amazing opportunities provided every day through the power of Chart Patterns and CPRM5! Regularly \$295—it's included FREE with CPRM5 for a limited time.
